

Long range high security keeloq rolling code transmitter uses a highly reliable - SAW resonator and superhet technology. It has an attractive and robust case that provides no false activation because of a sliding cover. It has a long battery life - Min. of 4 years in normal operating conditions. Low battery warning and auto shut-off - The battery in the remote will shut off when a button is pressed for 15 seconds.

Technical Data

BUTTONS	4
OPERATING RANGE	150M (Open air)
FRQUENCY	433MHz

High security - Keeloq rolling code

6 V powered by 2 x 3 VDC lithium batteries

Sliding cover to prevent accidental activation

Auto shut off & low battery warning

SPRTW01
