

# MPSTP2EXP

---

## Technical Data

<b>OPERATION</b>	433MHZ ROLLING CODE 2 CHANNEL TRANSMITTER
<b>RANGE</b>	100M (NOMINAL)
<b>DIMENSIONS (mm)</b>	37 (W) x 58 (H) x 12 (D)

Voltage: 2 x 3 V Lithium Batteries

Buttons in conductive rubber

Key-holder cord

Flat battery warning on LED

Suits all prastel receivers

---

EASYROLL transmitters are equipped with the E.R.P.A. function (which allows a valid copy remote to be inserted in place of a lost or stolen unit). E.R.P.A. is the third evolution of PRATEL's Rolling code technology, allowing the insertion and simultaneous cancellation of a lost transmitter. In existing installations this easy to function to perform, simply pressing the transmit button on the copy remote (within 4-5 m of the receiver) enters the new remote into the system memory and removes the old transmitter. Once this simple operation has been performed, the new transmitter will be ready for use.
