

NEW!

**EXTRA SIMPLE
EXTRA SECURE**

INTRODUCING ASTUTO

**Turn today's
job into an
encrypted site
both easily
and fast.**

Astuto is a 128 bit AES (Advanced Encryption Standard), exclusive to Sprint which is available in a suite of products, both familiar and excitingly different from what you're used to!

Using the symmetric block cipher algorithm with a block size of 128 bits, encrypting the blocks by joining them together to form "ciphertext", the chances of unintentional duplication are significantly reduced and re-production is made significantly harder.

The requirements of Astuto Encryption demand that we maintain a tight database of a maximum of one integrator with access to each credential for a site at any one time and therefore, your customer finds peace of mind that no unauthorised production is occurring. We also track your previous purchases for simplicity, you can order with your Astuto Key or by quoting the site address/building name and we'll know where you're up to and send you the next set of credentials!

ASTUTO PRODUCTS AVAILABLE FROM SPRINT INCLUDE:

PLUS: Lifetime warranty on all BLE/Weigand Readers!

NEED ENCRYPTION NOW?

Astuto offers kits, ready to go, encrypted, waiting for you on our shelf!

B6 KIT

Astuto B6 kit suits Bosch 6000 access control systems and contains:

- 2 Astuto encrypted bluetooth readers with **lifetime warranty**
- 10 Astuto encrypted ISO cards
- 2 Astuto encrypted executive gel tags
- 2 Genuine Bosch Wiegand converters

ANYPANEL KIT

Astuto ANYPANEL kit suits most access control systems* and contains:

- 2 Astuto encrypted bluetooth readers with **lifetime warranty**
- 10 Astuto encrypted ISO cards
- 2 Astuto encrypted executive gel tags

* Your access control system may need an accessory to link to the smart readers ie: Wiegand converter or similar. Please ask our distributors for assistance, if necessary.

HOW DOES IT WORK?

The contents of your Astuto Kit are already encrypted. Simple follow the steps below to ensure that your site remains protected and you're able to access more credentials as required.

1.

Fill in your registration card which is included in the box.

2.

Decide whether you need any additional Astuto cards, readers or gel tags.

3.

Email a photo of your registration card along with your additional requirements from step 2.

registration@astutoaccess.com

4.

Put the Astuto stickers provided, on the control panel to ensure everyone knows it's an Astuto site.
