F/A - Fully Assembled
F/P - Flat Packed

Datamaster® C1800 Series Server Cabinets

Floor standing 19", 800mm wide heavy-duty server cabinets available in 42RU and 45RU configurations with choice of 3 depths. Standard features include single, lockable, reversible and removable ventilated mesh front door. Double, lockable and removable ventilated mesh rear doors. Lockable and removable double-section side access panels. Generous ventilation, including ceiling mounted cooling fans and floorless design. Front and rear vertical cable management ducts and side cable trays. Adjustable front and rear rails. Level adjustable feet and heavy duty swivelling castors included. Heavy duty construction allows 1200KG (maximum) loading capacity. Black powder coated finish. IP20 rated. Applications include LAN servers, patch panels, network switches, telephone systems, AV, CCTV security camera DVR's.

Datamaster® C1400 Series Floor Standing Network Cabinets

Floor standing 19" network server rack cabinets available in 22RU, 32RU and 42RU sizes. Standard features include reversible transparent tempered safety glass front door. Removable and reversible rear door, removable side access panels. Heavy duty construction, locks on front and rear doors and side panels. Cooling fans, generous ventilation slots and ventilated shelves. Top and bottom cabling access slots, adjustable front and rear rails, cage nuts (20 sets) supplied. Heavy duty castors with brake and feet included. Heavy duty construction allows 500KG loading capacity. Black powder coated finish. IP20 rated. Applications include LAN servers, patch panels, network switches, telephone systems, AV, CCTV security cameras and DVR's.

Residential Network Enclosure

Compact residential wall mounted network enclosure designed for surface mounting or recessed installation in cavity walls. Cabinet is internally configured for 3RU x 19" panels. Rear cutouts plus top and bottom knockouts for cable entry. Ventilation slots at top and bottom of front panel. Four keyhole mounting slots on rear panel. Reversable door with keylock. White powder coated finish. Complies with NBN Co. guidelines & regulations NBN-NO-GDE-0011 Optional trim frame provides for neat recessed installation.

Datamaster® C1100 Series Wall Mounted Network Cabinets

Wall mounted 19" network cabinets available in 6RU, 9RU, 12RU and 18RU sizes with either 450mm or 600mm depth. Standard features include reversible transparent tempered safety glass front door, removable side access panels. Heavy duty construction, locks on front door and side panels, generous ventilation slots and ventilated shelf. Top and bottom cabling access slots, adjustable front and rear rails, cage nuts (15 sets) supplied. Cabinet floor is pre-drilled to fit optional wheels for floor-standing applications. Black powder coated finish. IP20 rated. Applications include patch panels, network switches, telephone systems, AV, CCTV security cameras and DVR's.

Datamaster® C1200 Series Rear-hinged Wall Mounted Network Cabinets

Wall mounted 19" network rack cabinets available in 6RU, 9RU, 12RU and 18RU sizes. With rear lockable, hinged, articulated swing frame for easy access to cabling. Standard features include reversible transparent tempered safety glass front door, removable side access panels. Heavy duty construction, locks on front door and side panels. Generous ventilation slots and ventilated shelf. Top and bottom cabling access slots, adjustable front and rear rails, cage nuts (15 sets) supplied. Black powder coated finish. IP20 rated. Applications include patch panels, network switches, telephone systems, AV, CCTV security cameras and DVR's.
